Amir Aliu

amiraliuks@proton.me Gjilan, Kosovo https://amiraliu.vercel.app

Summary

Cybersecurity practitioner focused on vulnerability research, offensive security, and competitive CTF. 16 CVEs credited across IoT firmware, Camaleon CMS, and MaxSite CMS, plus a Next.js middleware bypass resolved through bug bounty.

Security Research

MaxSite CMS

- Discovered and responsibly disclosed an authentication bypass and unauthenticated PHP remote code execution / object injection vulnerabilities
- CVE-2026-70552 (authentication bypass), CVE-2026-70553 and CVE-2026-70554 (unauthenticated PHP RCE / object injection)

Next.js Vulnerability Research June 2026

- Co-discovered a Next.js middleware bypass, resolved through a HackerOne bug bounty award (Report #3813036)

IoT Camera Security Research March 2026

- Discovered and responsibly disclosed 6 vulnerabilities in AJL30PG0803 IP camera firmware (FH8626V100 SoC), CVSS 6.5 to 8.8
- Findings include unauthenticated RCE, plaintext credential disclosure, blind OS command injection, and default Telnet access giving a full root shell
- CVE-2026-51402 through CVE-2026-51407

Camaleon CMS February 2026

- Discovered and responsibly disclosed vulnerabilities in Camaleon CMS 2.9.1: remote code execution, stored XSS, SQL injection, SSTI, and broken access control
- Built proof-of-concept exploits demonstrating privilege escalation and full application compromise
- Credited by name in the Camaleon CMS v2.9.2 release
- CVE-2026-66748, CVE-2026-67616, CVE-2026-73326, CVE-2026-73329, CVE-2026-73330, CVE-2026-73331, CVE-2026-73332

Teams

KSAL Cyber Team 2026 – Present

- Core member and contributor to a competitive cybersecurity team focused on CTF participation and collaborative research
- Contributed to team infrastructure; supported team visibility through content creation and LinkedIn outreach

https://ksal.team

Kosova Cyber Team

- Selected for a national-level training program preparing for international competitions
- Primary skill reverse engineering, secondary web security
- Competed in national CTFs, Attack & Defense exercises, and joint activities with international teams

https://kosovacyber.team

CTF Competitions

Kosovo National Cybersecurity Championship 2026 August 2026

IPKO Telecommunications

- Top 10 finalist in the finals with Kosova Cyber Team, competing in a multi-round exercise covering reverse engineering, web security, cryptography, and binary exploitation

https://ipko.com

BSides Prishtina 2026 CTF

Competed with KSAL Cyber Team and finished in 2nd place, solved challenges across crypto, forensics, misc, OSINT, pwn, reverse engineering, and web.
https://bsidesprishtina.org

Kosova Cyber Team Attack & Defense May 2026

- Competed in an international Attack/Defense CTF representing Kosovo alongside a joint team with Luxembourg. Took on a blue team role, focused on defending live services under active attack while simultaneously exploiting opponent infrastructure.

BlueHens CTF 2026

University of Delaware
Participated as a team under KSAL Cyber Team, finished in 6th place with 3839 points.

ApoorvCTF 2026

IIIT Kottayam
Participated as a team under KSAL Cyber Team, finished in 4th place.

VishwaCTF 2026
CyberCell VIT
- Participated as a solo player with a focus on reverse engineering challenges per our Kosova Cyber Team coach's reverse engineering syllabus guidance.

THJCC CTF 2026
HITCON, NCSE Network
- Participated as a team under KSAL Cyber Team, finished in 4th place.

Love at First Breach - CTF + Advanced Track 2026 February 2026

Experience

writeupify.app Remote
Founder & Full-Stack Developer 2026 – Present
- Built a collaborative platform for cybersecurity writeups with scalable backend architecture
- Designed features for team-based research, content sharing, and structured vulnerability documentation
- Focused on secure development practices and performance optimization

Freelance Web Developer Remote
Independent
- Developed and maintained websites for communities and SMB clients
- Delivered responsive applications with ongoing support
- Implemented backend systems and database integrations

Independent Remote
Community Manager, Developer, and Systems Administrator 2014 – 2021
- Managed high-availability gaming servers, built custom automation tools, and maintained backend infrastructure for online communities

Musa Zajmi Gjilan
Technical Support Volunteer 2013 – 2018
- IT support for school systems, devices, and users

Education

Universum College Bachelor
Computer Science (Paused) 2021
http://universum-ks.org

Zenel Hajdini High School
Socio-linguistic Studies 2018 – 2021

Skills

Languages & Frameworks
Python, JavaScript (Node.js, React, Next.js)

Databases
MySQL, PostgreSQL, Microsoft SQL Server, MongoDB

Operating Systems & Servers
Windows (Desktop/Server), Ubuntu, Kali Linux, VMware

Development & DevOps Tools
Git, Visual Studio, VS Code, Postman, SQL Server Management Studio

Security & Networking Tools
Ghidra, GDB, Wireshark, Nmap, Burp Suite, Gobuster, ffuf, Metasploit, Hydra, John the Ripper, Suricata, Tulip, Firegex, ExploitFarm

Certifications

Wireless Village Workshop #1 April 2026

DEFCON Group Prishtina & UBT Dukagjin

Introduction to Cybersecurity April 2026
A.U.K Training and Development Institute
